# AIR MAX

NIKE AIR MAX 90

\$98

Nike Air Max shoes feature visible Air cushioning, often seen through a pill-shaped window in a retro, low-profile unit, which provides lightweight cushioning and a feel-good forecast. They are designed with a blend of heritage styling and modern updates, using materials like synthetic suede, textile, and mesh to create a sporty, sleek look. Additional detailing includes rubber outsoles with a traction-adding pattern and a foam midsole that adds to the spring and comfort.
